

Cyber Crime & Law

PG Diploma - 1 year

*Eligibility : Graduate from a recognised university | Min. 45%.

Our one-year PG Diploma in Cyber Crime and Law is meticulously designed to provide students with comprehensive expertise in the critical domains of cyber laws, data protection, and technology governance. The program offers a well-rounded curriculum that combines theoretical insights with practical applications, ensuring students gain a deep understanding of the legal and regulatory frameworks governing the digital landscape.

Through our innovative pedagogy, we emphasize real-world relevance by integrating case studies, hands-on learning, and exposure to current trends in cyber law. This approach prepares graduates to excel in diverse professional roles, including legal consultancy, compliance management, cyber law advisory, and more. By bridging the gap between academic knowledge and practical skills, our program aims to shape proficient professionals ready to address the challenges of the evolving digital age.

Know more than theory

- Learn cyber laws, data protection, intellectual property, and technology governance
- Gain skills in legal research, drafting, and analyzing complex documents
- Understand cyberbullying, hacking, phishing, e-commerce, and online privacy issues
- Explore legal frameworks to address and resolve these challenges.
- Study the IT Act, 2000, and laws on cyberspace and intellectual property

Unlock your career scope

- Cyber Law Consultants
- Legal Advisors
- Data Privacy Officers
- Compliance Officers/ Cybersecurity Professionals
- Digital Forensics Experts
- Policy Analysts
- Technology Risk Managers
